This distressing affliction, which renders like miscrable and marriage impossible, is the penality paid by the victims of improper indulgence. Young persons are too apt to commit enteress from not being aware of the dieadfil consequences that may ensue. Now, who that understands the ambject will pretend to deny that the power of procreation is lost sooner by those failing into improper habits than by the prudent? Besiles being deprived of the pleasure of healthy offspring, the most serious and destructive symptoms of both body and mind arise. The system becomes deranged, the physical and mental functions weakened, loss of procreative power, nervous irritability, dispopala, palpitation of the heart, indigestion, constitutional debility, and wasting of the frame, cough, consumption, decay, and early death.

Dr. Fisibilitt graduated from one of the most aminent Colleges in the United States; has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and cars when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with derangement of mind, were cured immediately. urchasing. mart5 NEILL & ELLINGHAM.

Dr. Fishblatt addresses all those who have inJored themselves by improper indulgences and
solitary habits, which ruin both body and mind,
unditting them for either business, study, society
or marriage.

These are some of the sad and melancholy elfecis produced by the early habits of youth, viz.
Weakness of the back and limbs, pain in the
breast, dinners of sight, loss of musclar power,
palpitation of the heart, dyspepsia, nervous irr.
ability, symptoms of consumption, derangement
of the digestive functions, &c.

MENTALLY.—The effects on the mind are
much to be dreasted. Loss of memory, confusion
of ideas, depression of spirits, svii foreboding,
aversion to society, self-distrust, love of solitude,
timidity, &c., are some of the evils produced.

Thousands of persons of all ages can now judge
what is the cause of their doclining health, losing
